

KEVIN MESSINA

SENIOR iOS DEVELOPER

(631) 994-9123 | Profile | LinkedIn | GitHub | Portfolio

Senior iOS engineer with 15+ years shipping consumer and enterprise apps across Apple platforms. Hands-on Swift, SwiftUI, UIKit, and Objective-C developer experienced in full SDLC ownership, REST/SQL backends, testing, CI/CD, App Store delivery, and legacy modernization. Several apps have served 10,000+ users and one reached a #2 App Store ranking in Australia.

TECHNICAL SKILLS

Languages: Swift, Objective-C, SQL, PHP, JSON

Apple Development: SwiftUI, SwiftData, UIKit, Combine, Core Data, MapKit, CoreLocation, VisionKit, PDFKit, StoreKit, CloudKit

Architecture & Data: MVC, RESTful APIs, GRDB SQLite, MySQL, JSON services

Quality & Delivery: XCTest, Unit Testing, UI testing, TDD, Git, GitHub Actions, CI/CD, TestFlight, Swift Package Manager, CocoaPods, HomeBrew

PROFESSIONAL EXPERIENCE

Sr iOS Developer | Creative App Solutions, LLC | Huntington, NY & Jacksonville, FL | 2021–2026

- Architected and shipped iOS, iPadOS, and watchOS apps for global clients and authored products using Swift, SwiftUI, UIKit, Apple frameworks, and REST/JSON services.
- Led delivery across cross-functional groups of up to 60 in North America, Europe, and Australia; managed CI/CD with GitHub Actions and TestFlight and localized apps for 50+ languages.
- Rebuilt SquareFrame's iOS experience and PHP/MySQL backend, increasing retention 35% and revenue 51% while automating orders, invoices, and product customization.
- Developed Ballistic Tracker analytics and visualization with SwiftUI/UIKit, physics-based calculations, real-time APIs, CoreLocation, and SQL report exports.
- Built VendManage Apple Watch inventory workflows, SQL-driven analytics dashboards, and GIS-based delivery planning to improve restocking and logistics.

iOS Developer | DVMagic Studios, Inc. | Remote | 2010–2021

- Owned full-lifecycle delivery of consumer and enterprise mobile applications distributed through the App Store and private enterprise channels.
- Modernized legacy Objective-C applications with Swift and SwiftUI and integrated SQLite, GRDB, MySQL, and REST APIs for structured data workflows.
- Built Expense 2 Go for 10,000+ global users; used VisionKit-based capture and automated accounts-payable workflows to cut reimbursement time 80% and manual processing 15%.
- Built the My Footy Stats sports-analytics suite, reaching #2 in Australia's App Store; modernized the UI with SwiftUI and added PDFKit/Core Image sharing and monetization features.

EDUCATION

Bachelor of Science in Computer Science | Grumman Data Systems Institute, Woodbury, NY
